INTRODUCTION

Overview: MasteryPrep Solutions for the ACT

This report brings together seven customer stories from Texas, Alabama, North Carolina, Louisiana, Kentucky, and Tennessee. Each chapter focuses on a different school or district and follows the same arc—Context, Approach, and Outcomes—and each is specific about what was measured and the years it covers.

The customers used MasteryPrep's solutions for the ACT in different combinations, from a districtwide rollout of the full suite to a single targeted push before test day. The solutions are available individually and in bundles, summarized below.

Solution Bundles

ACT Online Prep, Powered by MasteryPrep is available on its own or within two larger bundles that add Curriculum and live services.

ONLINE PREP

ACT Online Prep

Practice Testing + Online Course and Bell Ringers, offered for both single-subject and full-test preparation.

- ✓ Practice Testing + Online Course
- ✓ Bell Ringers

ONLINE PREP + TEACHER TOOLS

Advance

Everything in ACT Online Prep, plus MasteryPrep Curriculum for the ACT.

- ✓ Practice Testing + Online Course
- ✓ Bell Ringers
- ✓ Curriculum

ADVANCE + LIVE WORKSHOPS

Achieve

Everything in Advance, plus live services: product training and a Boot Camp for the ACT.

- ✓ Practice Testing + Online Course
- ✓ Bell Ringers
- ✓ Curriculum
- ✓ Product Training
- ✓ Boot Camp

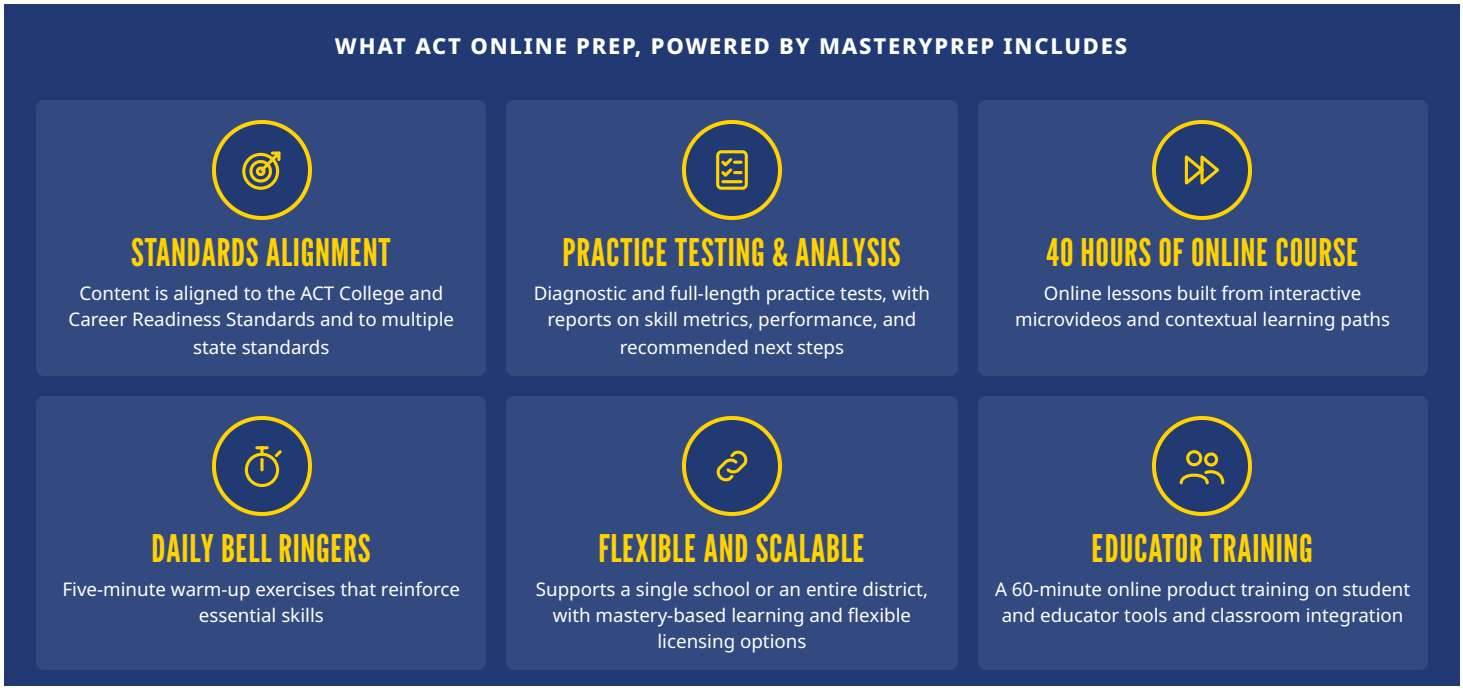

ABOUT THE PARTNERSHIP

An Official Strategic Partner of ACT Education Corp.

ACT® Online Prep
Powered by MasteryPrep

In 2025, MasteryPrep became an official strategic partner of ACT Education Corp., building on a years-long relationship between the two organizations. The partnership combines ACT's assessment content with MasteryPrep's digital learning tools to provide schools and districts with a standards-aligned solution for ACT readiness.

The result is **ACT Online Prep, Powered by MasteryPrep**, a next-generation ACT preparation platform that schools and districts can deliver to students in the classroom setting.

Built for the Enhanced ACT

Practice and prep on the platform reflect the enhanced ACT, including shorter reading passages, more time per question, and rebalanced reporting categories.

RESULTS AT A GLANCE

Seven Customers, One Goal: Higher ACT Scores

Each row shows the headline ACT result reported in a MasteryPrep customer story, with the specific years or cohorts measured. Details, context, and additional data points are available in the chapters that follow.

School / District	Years Measured	Key Outcome	MasteryPrep Solutions Used
Splendora ISD Texas	2024 → 2026	NUMBER OF STUDENTS MEETING ACT BENCHMARKS **Reading: 11 → 59 students** **Math: 6 → 27 students**	Boot Camps for the PSAT®, SAT®, and ACT; Curriculum and Professional Development for the TSIA2 and STAAR EOC
Cullman County Schools Alabama	2023–24 → 2024–25	PERCENTAGE-POINT INCREASE IN STUDENTS MEETING ACT BENCHMARKS **ELA +6 · Reading +5 · Math +2 · Science +2**	Full ACT suite: Professional Development, Practice Testing + Online Course, Curriculum, Bell Ringers, Boot Camp
Clay County Schools North Carolina	2023 → 2024	AVERAGE ACT SCORE (0–36 SCALE) **Composite: 17.6 → 18.5** **Science: 17.9 → 19.3**	Boot Camp for the ACT, Professional Development, and Practice Testing + Online Course
Charlotte-Mecklenburg Schools North Carolina	2022–23 → 2023–24	NUMBER OF PILOT SCHOOLS WITH HIGHER AVERAGE ACT COMPOSITES **6 of 9 schools (up to +0.7 points); the state average fell 0.1**	MasteryPrep for the ACT, including Bell Ringers, Practice Testing + Online Course, Professional Development, and Boot Camp
Rapides Parish Schools Louisiana	Fall 2022	NUMBER OF HIGH SCHOOLS WITH HIGHER SENIOR ACT COMPOSITES **10 of 11 schools; 375 of 786 seniors improved their scores**	Boot Camps for the ACT at all 11 high schools; Practice Testing + Online Course at several schools
Western Hills High School Kentucky	2022 → 2023	AVERAGE ACT COMPOSITE SCORE (0–36 SCALE) **Junior class: 16.7 → 18.8**	Boot Camp for the ACT and Professional Development for the ACT
Carter County Schools Tennessee	2021–22 → 2022–23	AVERAGE ACT COMPOSITE SCORE (0–36 SCALE) AND NUMBER OF STUDENTS **Composite: 16.4 → 18.1** **Students scoring 21+: 52 → 87**	Full ACT suite, including Curriculum, Practice Testing + Online Course, Bell Ringers, Boot Camps, and Professional Development

A NOTE ON READING THESE RESULTS

Each figure is a before-and-after result reported by the school or district in its customer story. Most credit several efforts working together, including their own initiatives, so results should not be attributed to any single MasteryPrep solution.

RESULTS AT A GLANCE

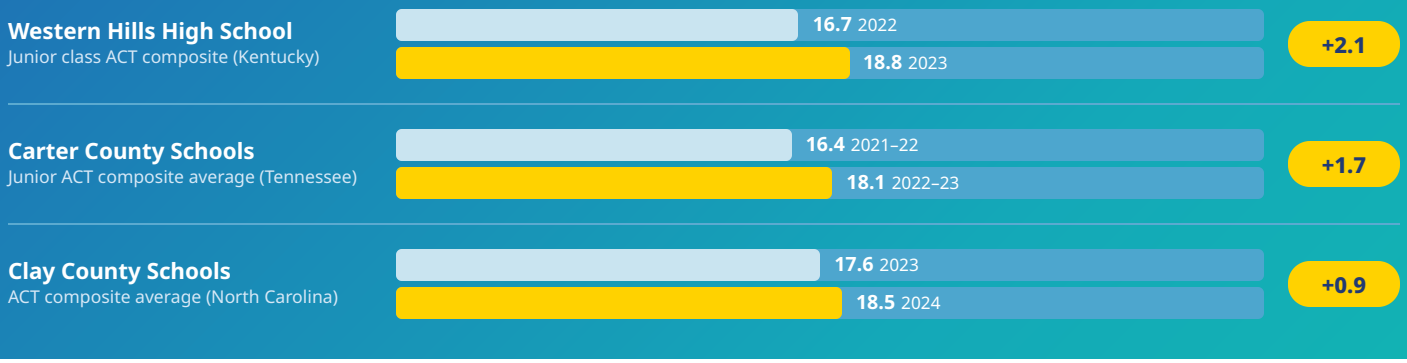

The Gains in Context: Before and After

Composite results are shown on the ACT's 0–36 scale with the years on each bar; benchmark results show the number or share of students meeting each ACT benchmark.

AVERAGE ACT COMPOSITE SCORE: BEFORE AND AFTER

Average ACT composite score on the ACT's 0–36 scale

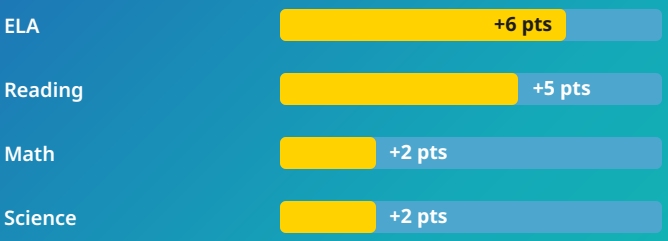

Before After

Benchmarks and School-Level Results

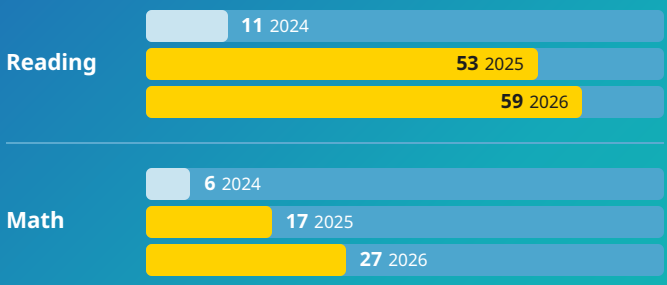

CULLMAN COUNTY (AL)

Percentage-point increase in students meeting each ACT benchmark, 2023–24 → 2024–25

SPLENDORA ISD (TX)

Number of students meeting each ACT benchmark, 2024 → 2026

NUMBER OF SCHOOLS THAT RAISED THEIR ACT COMPOSITE AVERAGES

CHAPTER 1 · TEXAS

Splendora ISD: Number of Students Meeting ACT Reading Benchmarks Climbed From 11 to 59

Splendora ISD, Texas · ACT · 2024 through 2026

11 → 59	6 → 27	2
Number of students meeting the ACT Reading benchmark (2024 → 2026)	Number of students meeting the ACT Math benchmark (2024 → 2026)	Perfect ACT Science scores—a first for the district

Context

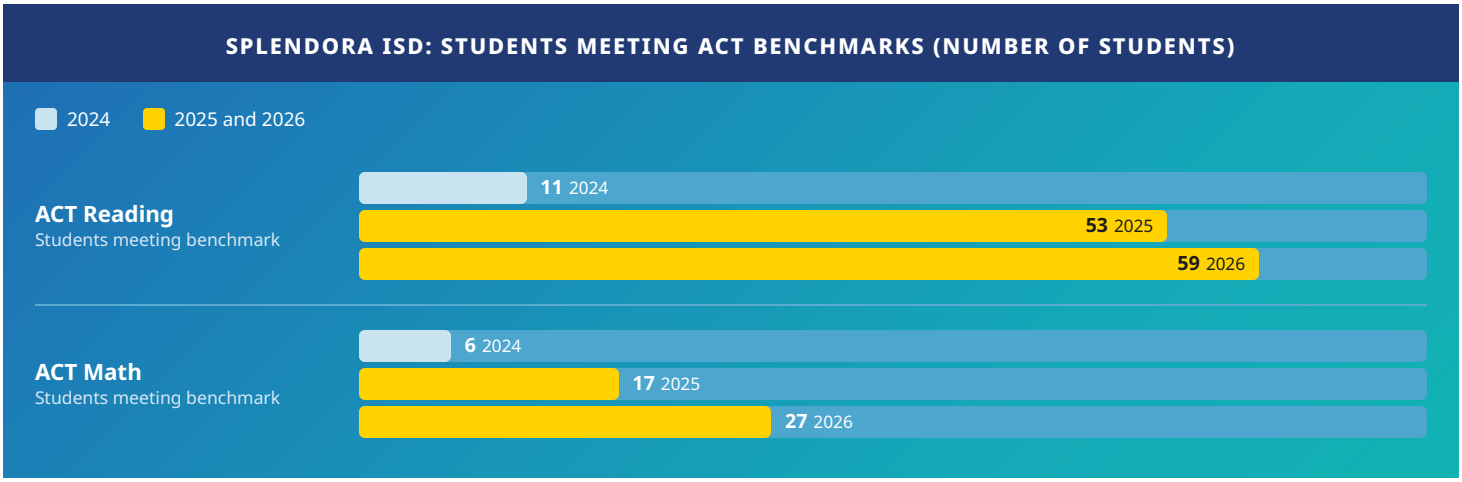

Splendora Independent School District in Texas set out to build a culture of college readiness across its campuses, including its Early College High School. Leaders found that teacher capacity was one of their biggest barriers. “We have incredible educators, but they were stretched thin,” says Dr. Kristy Dietrich, Assistant Superintendent of Teaching and Learning. “We needed a program that didn’t just drop off materials but helped our teachers implement them with fidelity.”

Approach

Splendora took a districtwide approach in which teacher support came first. Since 2024, teachers have received hands-on training in MasteryPrep materials, beginning with Curriculum for the TSIA2 and STAAR EOC paired with embedded Professional Development. To complement daily instruction, the district introduced Boot Camps for the PSAT and, for upper-level students, the SAT and ACT, with festive themes that included “Pizza Pi & PSAT” and “Spaghetti and SAT.”

Outcomes

The number of students meeting the ACT Reading benchmark rose from 11 in 2024 to 53 in 2025 and 59 in 2026, and the number meeting the ACT Math benchmark rose from 6 to 17 to 27. Two students earned perfect scores on the ACT Science section for the first time in district history. The district also reported gains on the SAT and the TSIA2, where the eighth-grade Writing passage rate rose from 9% in 2023–24 to over 60% in 2025–26. The story describes Boot Camps and curricular resources as one piece of a larger districtwide effort.

> **The results weren’t magic. They came from strong implementation and consistency. This wasn’t just about test prep. It was about preparing students for their futures.”**
>
> ***—Dr. Kristy Dietrich, Assistant Superintendent of Teaching and Learning, Splendora ISD***

CHAPTER 2 · ALABAMA

Cullman County Schools: Percentage of Students Meeting ACT Benchmarks Rises in Every Subject

Cullman County Schools, north-central Alabama · ACT · 2023–24 pilot, 2024–25 districtwide

+6 pts	59%	7
Percentage-point increase in students meeting the ACT ELA benchmark (2023–24 → 2024–25)	Fairview HS students (PreACT® and ACT) who improved their composite within a year	High schools using MasteryPrep solutions for the ACT in 2024–25

Context

Cullman County Schools in north-central Alabama had relied on traditional test prep focused on quick tips and tricks and wanted an approach that built true college readiness, not just better test-takers. “We needed something that went beyond test-taking strategies,” says Kim Lindsey, Secondary Curriculum Coordinator. “Our teachers wanted tools that actually helped students learn the content.”

Approach

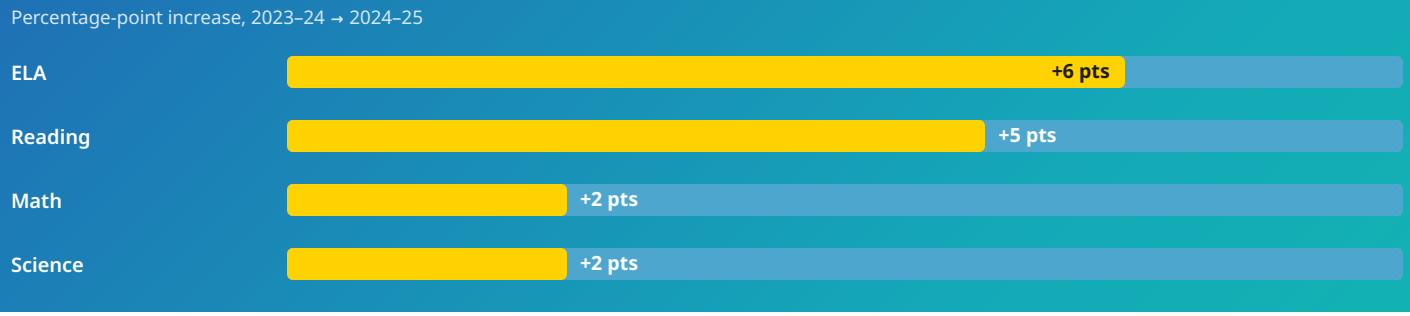

Holly Pond High School piloted the full suite of MasteryPrep live services and digital offerings in 2023–24, and the results convinced district leaders to roll out MasteryPrep solutions for the ACT to all seven high schools in 2024–25: Professional Development, Practice Testing + Online Course, Curriculum, Bell Ringers, and Boot Camps. All English, math, science, and history teachers took part in full-day training, and every 9th, 10th, and 11th grader takes a full-length practice test at the start of the year so teachers can group students for interventions.

The district did not prescribe a one-size-fits-all model. Fairview High School dedicates an entire class period to ACT readiness, while West Point High School’s “Warrior Period” rotates all students through ACT subject areas every six weeks. Each spring, juniors also take part in a full-day Boot Camp for the ACT that has become a community event, with local businesses providing meals and prizes.

Outcomes

Between 2023–24 and 2024–25, the percentage of students meeting ACT benchmarks rose 6 points in ELA, 5 in Reading, and 2 each in Math and Science. At Fairview High School, nearly 60% of students who took both the PreACT and ACT improved their composite scores in one year, and lower-performing students gained an average of 4 to 5 points. “Some of these students didn’t even benchmark before,” says teacher Chris Howse. “Now they know how to study and how to take a test. They’ve learned how to identify weaknesses and fix them.”

CULLMAN COUNTY: INCREASE IN STUDENTS MEETING ACT BENCHMARKS

> **MasteryPrep makes scientific sense. If you fix the right problems, you’ll see results.”**
>

CHAPTER 3 · NORTH CAROLINA

Clay County Schools: ACT Composite Rises From 17.6 to 18.5 in a Rural Appalachian District

Clay County Schools, Hayesville, North Carolina · ACT · 2023 vs. 2024

17.6 → 18.5	17.9 → 19.3	Since 2017
ACT composite average (2023 → 2024)	ACT Science average (2023 → 2024)	MasteryPrep partnership, starting with a Boot Camp

Context

Clay County sits in western North Carolina's Appalachian region, where distance, staffing, and budgets make it hard to give students the same test-prep experiences as larger districts. The district connected with MasteryPrep in 2017 through Appalachian State University's federally funded GEAR UP program, and approximately 100–120 students at Hayesville High School and Hayesville Early College now participate in programs to prepare for college entrance exams.

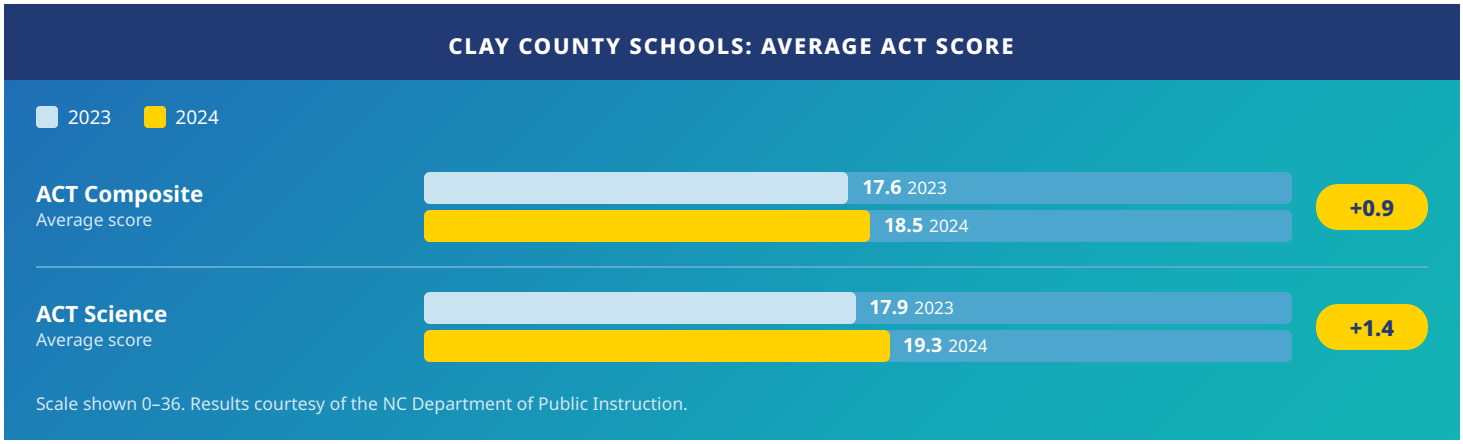

Approach

Clay County's first MasteryPrep experience was a Boot Camp for the ACT. "We saw a lightbulb moment," says Mary Cothren, GEAR UP Coordinator. Today the district pairs Boot Camps with Professional Development for teachers and Practice Testing + Online Course built on official ACT questions, with these initiatives running from September through May.

Rather than cover all four ACT subjects in a single day, Clay County adapted the Boot Camp into two shorter sessions over two days—English and Math in one, Reading and Science in the other—and has used this format for three years. Students keep their ACT workbooks, and teachers sit in to see which areas students find hardest. When a group of juniors became ineligible for GEAR UP support because of a federal funding gap, the Clay County community rallied to fund their Boot Camp for the ACT.

Outcomes

In 2024, Clay County's ACT composite average was 18.5, up from 17.6 in 2023, and its ACT Science average rose from 17.9 to 19.3. Student engagement has shifted, too. "I've never had so many kids voluntarily ask to study for the ACT," says Cothren. "It really speaks to the quality and the difference that we've seen—the shift in the students' mindset, the shift in the culture of testing in general."

> **"MasteryPrep was incredibly flexible. This schedule keeps our students engaged. We've done it this way for three years now, and it works."**
>
> ***—Mary Cothren, GEAR UP Coordinator, Clay County Schools***

Charlotte-Mecklenburg Schools: ACT Pilot Schools Raise Composite Scores While the State Dips

Charlotte-Mecklenburg Schools, North Carolina · ACT (all 11th graders) · 2022–23 vs. 2023–24

6 of 9	+0.318	5 of 6
Number of pilot schools that raised their ACT composite averages	Average change for pilot schools, vs. −0.42 for non-pilot schools	Top-improving CMS schools that were MasteryPrep clients

Context

Charlotte-Mecklenburg Schools (CMS) is the 16th-largest school district in the nation, serving more than 141,000 students in Grades K–12 across 186 schools, including 34 high schools and early colleges. North Carolina requires districts to administer the ACT to all 11th graders each spring. In 2023–24 the statewide composite fell 0.1 points to 18.1, and the CMS composite fell 0.2 points to 18.3.

Approach

In 2023–24, nine CMS high schools piloted MasteryPrep for the ACT, with access to the platform and workshops. MasteryPrep geared the pilot toward schools that traditionally score below the state composite and the students who could benefit most. Mallard Creek High School implemented Bell Ringers (daily warm-up exercises), Practice Testing + Online Course, Professional Development for teachers, and Boot Camps for students.

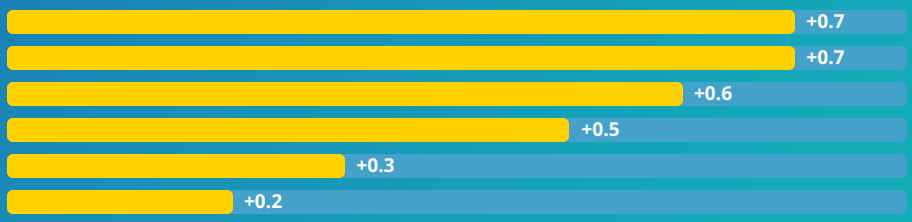

“We were seeking resources that would allow all students access to ACT prep and test practice options that were a one-stop-shop. The idea that students across all grade levels could practice ACT content was phenomenal,” says Beverly Brown, Assistant Principal at Mallard Creek High School. “One hundred percent of the student body had access to daily ACT activities.”

Outcomes

Six of the nine pilot schools raised their composite averages, led by Rocky River and Garinger High Schools at +0.7 each. The average change for pilot schools was +0.318 points, compared with −0.42 for schools not participating in the pilot, and MasteryPrep clients made up five of the six top-improving schools in the district, according to a MasteryPrep analysis of the data.

CHARLOTTE-MECKLENBURG: CHANGE IN ACT COMPOSITE AVERAGE, PILOT SCHOOLS THAT IMPROVED

Point change, 2022–23 → 2023–24, with before and after averages

The other three pilot schools did not report increases. North Carolina’s statewide composite fell 0.1 (18.2 → 18.1) and CMS overall fell 0.2 (18.5 → 18.3).

Source: MasteryPrep customer story, Charlotte-Mecklenburg Schools (February 24, 2025). Unpaid testimonial. Individual results may vary, and testimonials are not claimed to represent typical results. The ACT results reported are courtesy of the North Carolina Department of Public Instruction and are based on year-over-year test data.

Rapides Parish Schools: 10 of 11 High Schools Raise Seniors' ACT Composite Averages

Rapides Parish Schools, Alexandria, Louisiana · ACT · Seniors, October 22, 2022 test date

10 of 11	375	80.4
Number of high schools that raised seniors' ACT composite averages	Seniors who improved their scores (of 786 prepped)	School Performance Score, the district's highest under the current formula

Context

Rapides Parish Schools in Alexandria, Louisiana, serves about 20,000 students in 32 elementary, 17 middle, and 11 high schools under the motto "Engage, Empower, Elevate." Louisiana's accountability formula includes ACT performance. Matt Byrnes, Director of Secondary Education, was introduced to MasteryPrep as a principal at Bolton High School; at the district level, he pushed for the resources across all 11 high schools and some middle schools.

Approach

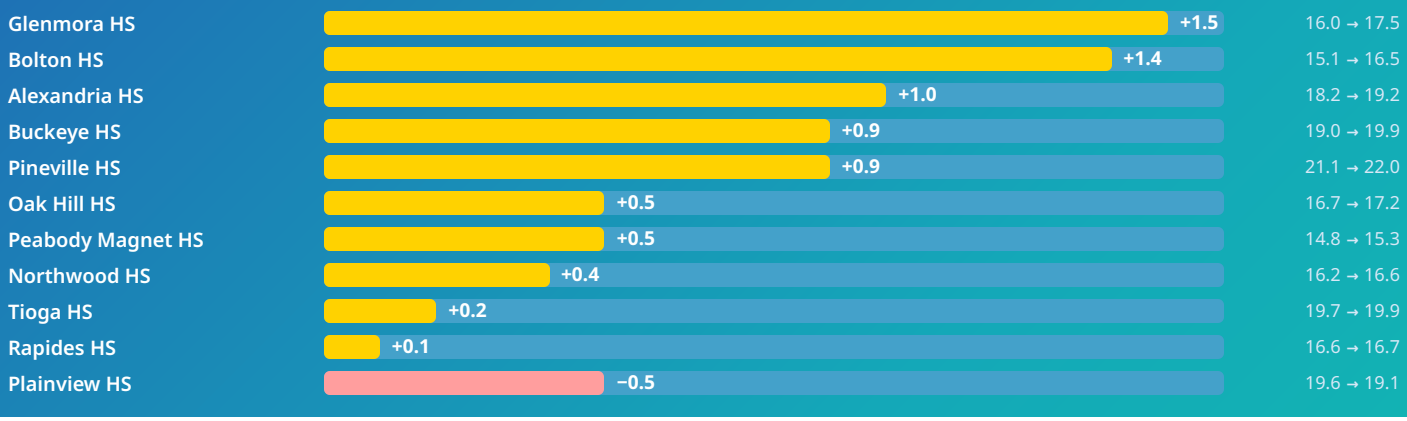

The 2022–23 school year was the district's second year implementing MasteryPrep resources on a unified, districtwide front. The district paid for its seniors to take the ACT on October 22, 2022, and scheduled Boot Camps for the ACT within two weeks beforehand, prepping 786 seniors at all 11 high schools. Several schools also use MasteryPrep Practice Testing + Online Course for the ACT. Byrnes says that unified effort, combined with proper data tracking and accountability, "will continue to move our district forward."

Outcomes

After the October 2022 ACT, 10 of the 11 high schools raised their seniors' composite averages and 375 seniors improved their scores. Glenmora (+1.5), Bolton (+1.4), and Alexandria Senior High (+1.0) led the way; Buckeye had the highest share of seniors improving (66%), and Pineville moved from 21.1 to 22.0 with 62% of its seniors improving. One school, Plainview, declined by 0.5. That fall the district also earned an 80.4 School Performance Score, its highest ever under the current formula, which includes ACT performance, with three schools earning an A.

RAPIDES PARISH: CHANGE IN SENIORS' ACT COMPOSITE AVERAGE, BY HIGH SCHOOL

Point change after the October 22, 2022 ACT, with before and after averages

CHAPTER 6 · KENTUCKY

Western Hills High School: Juniors Raise Their ACT Composite by 2.1 Points

Western Hills High School, Frankfort, Kentucky · ACT · 2022 (sophomores) vs. March 2023 (juniors)

16.7 → 18.8	+3.5	56 of 67
Junior class ACT composite vs. the same students as sophomores (2022 → 2023)	ACT English gain, the largest of any subject	Boot Camp participants who grew 1–7 composite points

Context

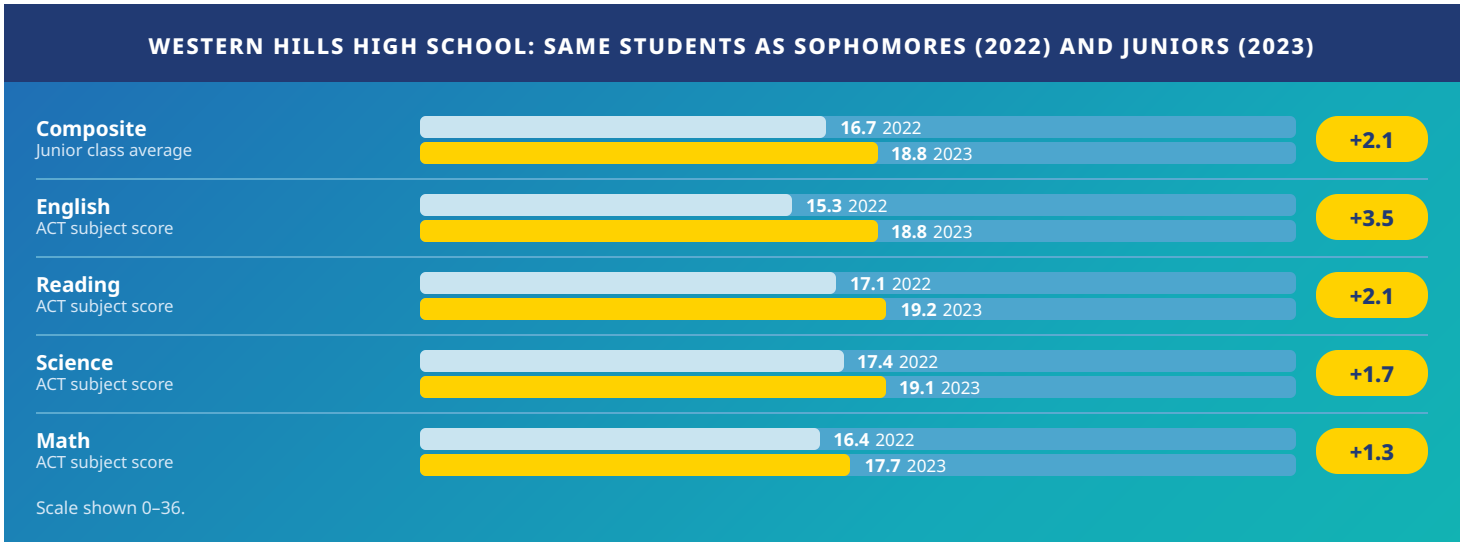

Western Hills High School in Frankfort, Kentucky, saw its ACT scores trend downward in recent years. Its 181-student junior class took Kentucky's mandated ACT on March 8, 2023. Teachers had held extra study sessions, and the school's School-Based Decision-Making Council researched ACT prep programs to help as many students as possible reach benchmark scores.

Approach

On March 2, Western Hills partnered with MasteryPrep to host a Boot Camp for the ACT for 67 juniors who were 1–4 points away from meeting Kentucky's benchmarks in any ACT section. Wind gusts of up to 70 miles per hour and a power outage postponed the exam, but students stayed confident and focused. Teachers were encouraged to attend the Boot Camp throughout the day. The school then re-ordered the Boot Camp for 2024 and invested in MasteryPrep Professional Development for the ACT for 12 teachers, to build ACT strategies into core classes and flex-time periods.

Outcomes

The 2023 junior class scored an 18.8 composite, up 2.1 points from the 16.7 the same students scored as sophomores in 2022, with gains in every subject. The 67 Boot Camp participants averaged a 2.1-point composite gain, and 56 improved by between one and seven points. One student-athlete raised his composite from 19 to 21, with a six-point jump in English, opening opportunities to compete at the Division I level.

> **"You can see from the data and timeline that along with the tremendous efforts of our teachers, MasteryPrep played a pivotal role in our improvement."**
>
> ***—Ryan King, Principal, Western Hills High School***

Source: MasteryPrep customer story, Western Hills High School (May 24, 2023). Unpaid testimonial. Individual results may vary, and testimonials are not claimed to represent typical results. ACT score average and gain data courtesy of the MasteryPrep client district and based on year-over-year ACT test data for the same cohort.

Carter County Schools: ACT Composite Climbs 1.7 Points Across Four High Schools

Carter County Schools, Elizabethton, Tennessee · ACT · 2021–22 vs. 2022–23 (March 2023 statewide ACT)

16.4 → 18.1	52 → 87	4 → 8
Junior ACT composite average (2021–22 → 2022–23)	Number of students district-wide scoring 21 or better on the March ACT	High school subjects meeting growth expectations (of 11)

Context

Carter County Schools, in Elizabethton, Tennessee, partners with MasteryPrep to deliver college readiness resources to four high schools—Cloudland, Hampton, Happy Valley, and Unaka—reaching approximately 1,200 students. "We continue to invest in high-quality test prep across all four high schools, so that our students can focus on improving their ACT scores. It takes year-round dedication among our administrators, teachers, and students," says Tyler Chambers, ACT and High School Curriculum Coordinator.

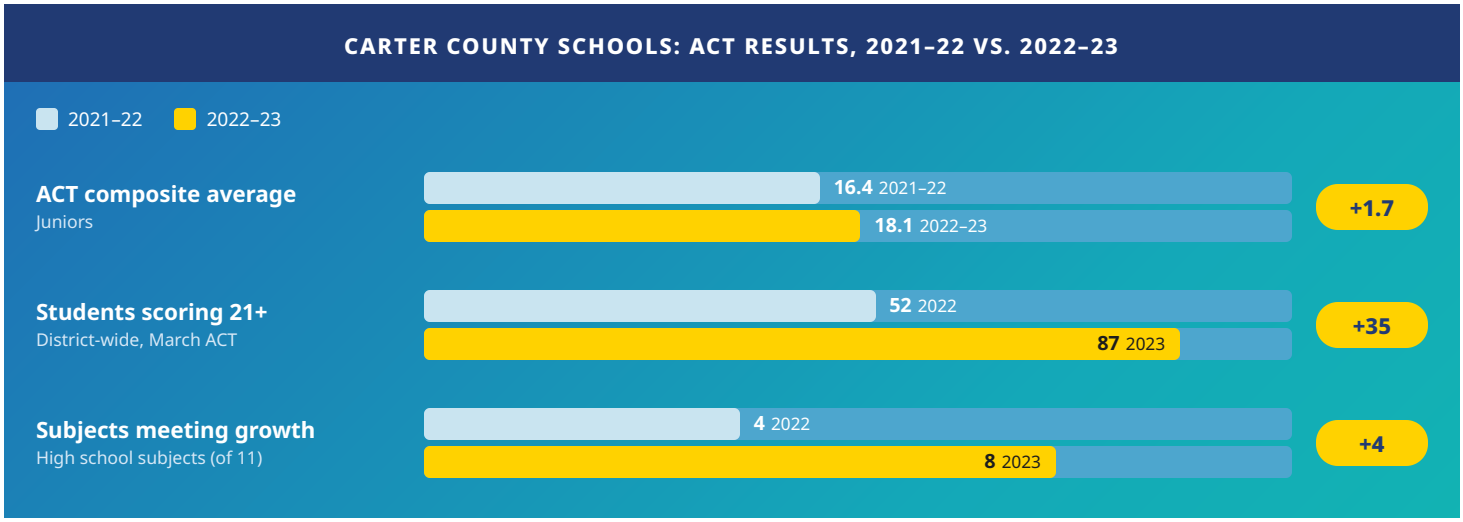

Approach

The district was first exposed to MasteryPrep through Boot Camps, where it saw immediate improvements, and that experience built the buy-in for a complete investment in the suite of MasteryPrep solutions for the ACT: Curriculum, Practice Testing + Online Course, *The College Playbook*, Bell Ringers, Boot Camps, and Professional Development. Each high school holds a 45-minute ACT prep period every day, and Bell Ringers were added to additional classes in 2023–24, so students get some form of ACT prep every day.

Practice tests, which mirror the timing and format of the real ACT and draw on five realistic ACT tests and more than 2,000 real ACT questions, are given three times a year: a baseline at the start of the year, one before winter break, and one in February ahead of the statewide March ACT. Teachers and students see the data in real time and adjust to strengths and weaknesses.

Outcomes

Juniors in 2022–23 posted an 18.1 composite average on the March 2023 statewide ACT, compared with a 16.4 for juniors in 2021–22. District-wide, 87 students scored 21 or better, up from 52 the year before, and 8 of 11 high school subjects met growth expectations, up from 4 of 11 in 2022. "The curriculum has helped our students increase their ACT scores in every subject area it was used. The program is well laid out and intuitive from both the teachers' and students' perspectives," says Jason Ward, a Unaka High School English teacher.

Source: MasteryPrep customer story, Carter County Schools (October 5, 2023). Unpaid testimonial. Individual results may vary, and testimonials are not claimed to represent typical results. ACT score average and gain data courtesy of the MasteryPrep client district and based on year-over-year ACT test data for the same cohort.

CONCLUSION

What the Stories Have in Common

Across seven customers in six states, the same five choices appear again and again behind ACT gains.

1. Treat ACT prep as a system, not a single event

Several districts describe ACT prep as a year-round, districtwide effort rather than a one-day event.

2. Give every student daily exposure

Short, regular practice in class reaches all students, not only those who attend an event.

3. Use practice test data to guide instruction

Baseline and follow-up practice tests show teachers where to intervene and show students how far they have come.

4. Equip teachers with ready-to-use training and materials

Hands-on training and lessons that fit into existing plans make it easier for teachers to implement with fidelity.

5. Add a final push close to test day, and make it an event

A Boot Camp for the ACT scheduled shortly before the exam builds confidence, and a little celebration builds momentum.

> **“It’s not about one Boot Camp or one big test anymore. It’s about steady improvement. Students can see where they started and how far they’ve come, and that changes their mindset.”**
>
> ***—Chris Howse, Teacher and ACT Data Team, Fairview High School***
